CERTIFIED NATURALLY GROWN PORK, BEEF, and EGGS

Our livestock is raised in a healthy and humane manner, and we consider our animals to be an integral part of our diverse farm operation.

PASTURE RAISED PORK

Our heritage breed hogs are born on our farm and raised outside on pasture. They help recycle culled vegetables from our fields and are supplemented with organic grains, which are freshly ground on the farm and mixed with organic minerals, probiotics and kelp. We offer our pasture raised pork by the quarter, half or whole. Expected hanging weight is approximately 200 pounds per hog. Price includes processing and packaging. Smoking, sausage, and bratwurst have an extra charge per pound. Split halves (1/4's) are processed in a standard user-friendly package with chops, fresh roasts, smoked bacon and hams, and breakfast sausage made from the trimmings. Available Fall 2019

PASTURE RAISED PORK BUNDLES

Pork bundles are a 10% savings on our regular retail prices. A standard bundle is a mix of bacon, ham, hocks, chops, roasts, and sausage. We can also tailor a bundle to your specific cut requests.

Bundles are available throughout the year, and they are great for those tight on freezer space or for a gift.

GRASS FED BEEF

We currently raise Scottish Highlanders and Red Angus cattle, which are hardy breeds that thrive on pasture. They rotationally graze a diverse diet of re-mineralized pasture, and our brood herd and calves are overwintered on organic hay. They produce an extra lean, nutritionally superior meat that is 3-5 times higher in omega 3 fatty acids and CLA (conjugated linoleic acid) than commercial beef. Our Grass Fed Beef is available by the half or split half (1/4). Orders will be processed to your specifications. Expected hanging weight per beef is approximately 450 pounds. Price includes processing and packaging. Hamburger patties, bratwurst, and sausage have an extra charge per pound. We sell limited sides of beef, and they are usually all reserved early in the season. Available December 2019

EGGS FROM PASTURE RAISED CHICKENS

Our hens are seasonally raised on pasture in a moveable coop. In addition to culled vegetables, they eat organic grains, which are freshly ground on the farm and mixed with organic minerals, probiotics and kelp. Both seasonal and yearly egg shares start on June 19th. Eggs are also available through our Farmazon online store, directly from the farm, or at the Marquette Farmers Market.
